FEATURED MARKET DATA

Core Inflation Moderating

Though the path to lower inflation has been somewhat bumpy, the trend in Core PCE (Personal Consumption Expenditures), the Fed's preferred measure of inflation, continues downward. Year-over-year growth in Core PCE declined to 2.8% in February. The reading was aligned with economists' expectations following the CPI report earlier in March which exceeded expectations. Core services excluding energy & shelter decelerated significantly to 0.18% for the month. The reading was down from 0.66% for January and more in line with disinflationary trends that prevailed from May 2023 to Dec 2023. Core PCE is now significantly below the 5.50% upper range of the Fed Funds target rate.

Important Update!

New PMA Government Portfolio System (GPS) Website

We are pleased to announce that, debuting this Spring of 2024, Fund Participants will have access to a new and improved **PMA GPS website** to manage your accounts.

In order to make for a smooth transition to the new platform, you will be required to create a new password and to set up two factor authentication. The following, short video to the right will help guide you through the process of logging into the new GPS. *The authenticator app can be downloaded prior to the launch of the new GPS site.*

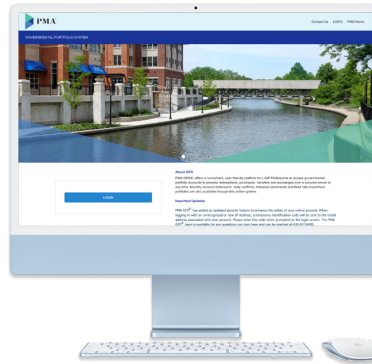

[Watch Video](#)

System benefits include:

- Defined user access
- Streamlined user interface
- Access to current and historical reports
 - Statements
 - Transactions
- Mobile friendly

More information to follow on this exciting enhancement over the coming weeks.

Now Mobile Friendly!
